

**Jeff White** is the Head of the Delivery Systems & Services business unit at Versum Materials, a subsidiary of Merck KGaA, Darmstadt, Germany. In this role, he is responsible for our GASGUARD®, GASKEEPER®, CHEMGUARD® and MEGASYS® brands and provides our business in areas that support the sales and safe delivery of our specialty materials, as well as the installation and service of the equipment and functions necessary to support that activity.

Jeff also serves as President, EMD Performance Materials, Americas, a division of Merck KGaA, Darmstadt, Germany. In this role, Jeff coordinates the critical functional resources across all the various businesses in Performance Materials related to the community, government, compliance, branding, safety, employee engagement, opportunities and business synergies.

Prior to his current responsibilities, Jeff served as the Vice President and General Manager of Delivery Systems & Services for the Materials Technologies business of Air Products since 2014.

Jeff joined Air Products in 2000 as a sales executive in Colorado Springs. He progressed steadily through sales and regional management positions. In 2003, he was assigned to manage Air Products' Electronics customer-facing office in Santa Clara, California. In 2011, Jeff relocated to Allentown, Pennsylvania, where he was named Director, Product Management, for North America-based products. He was previously Director of Asset Management for Advanced Materials in 2013 and General Manager of Delivery Systems in 2014.

Jeff began his career in 1991 in the United States Air Force, where he worked in systems acceptance testing and engineering. Upon completing his service in the Air Force, he joined the BOC Group as a field-based project engineer, then as an operations manager responsible for a team handling gases, chemicals and delivery systems equipment, and vacuum and abatement systems.

Jeff holds a Bachelor of Science degree in both Industrial Engineering and Economics from the United States Air Force Academy and a Master's degree in Industrial Engineering from the Georgia Institute of Technology.

In his community, Jeff serves on the board of directors of the Lehigh Valley Chapter of Habitat for Humanity.
